Just Eco-Power Everywhere

Confidential Document of M.E.G.
Digi-Triumph Technology Inc.

Introduction

- ❖ Established at Jun/2003.
- ❖ Professional Lithium Battery Power Storage Manufacturer and Supplier in Taiwan.
- ❖ Core Technology:
The design and manufacturing of Lithium Battery Module, BMS and PCU of High-cells battery module, BLDC Motor Controller for LEVs.
- ❖ Main Products: Ni-MH Rechargeable Battery; Lithium Rechargeable Battery Pack for IT products and Industrial Devices; Power Storage System for Renewable Energy Generator; Lithium Battery Module for LEVs; Battery Application Products
- ❖ Brand Name: Just Power[®]

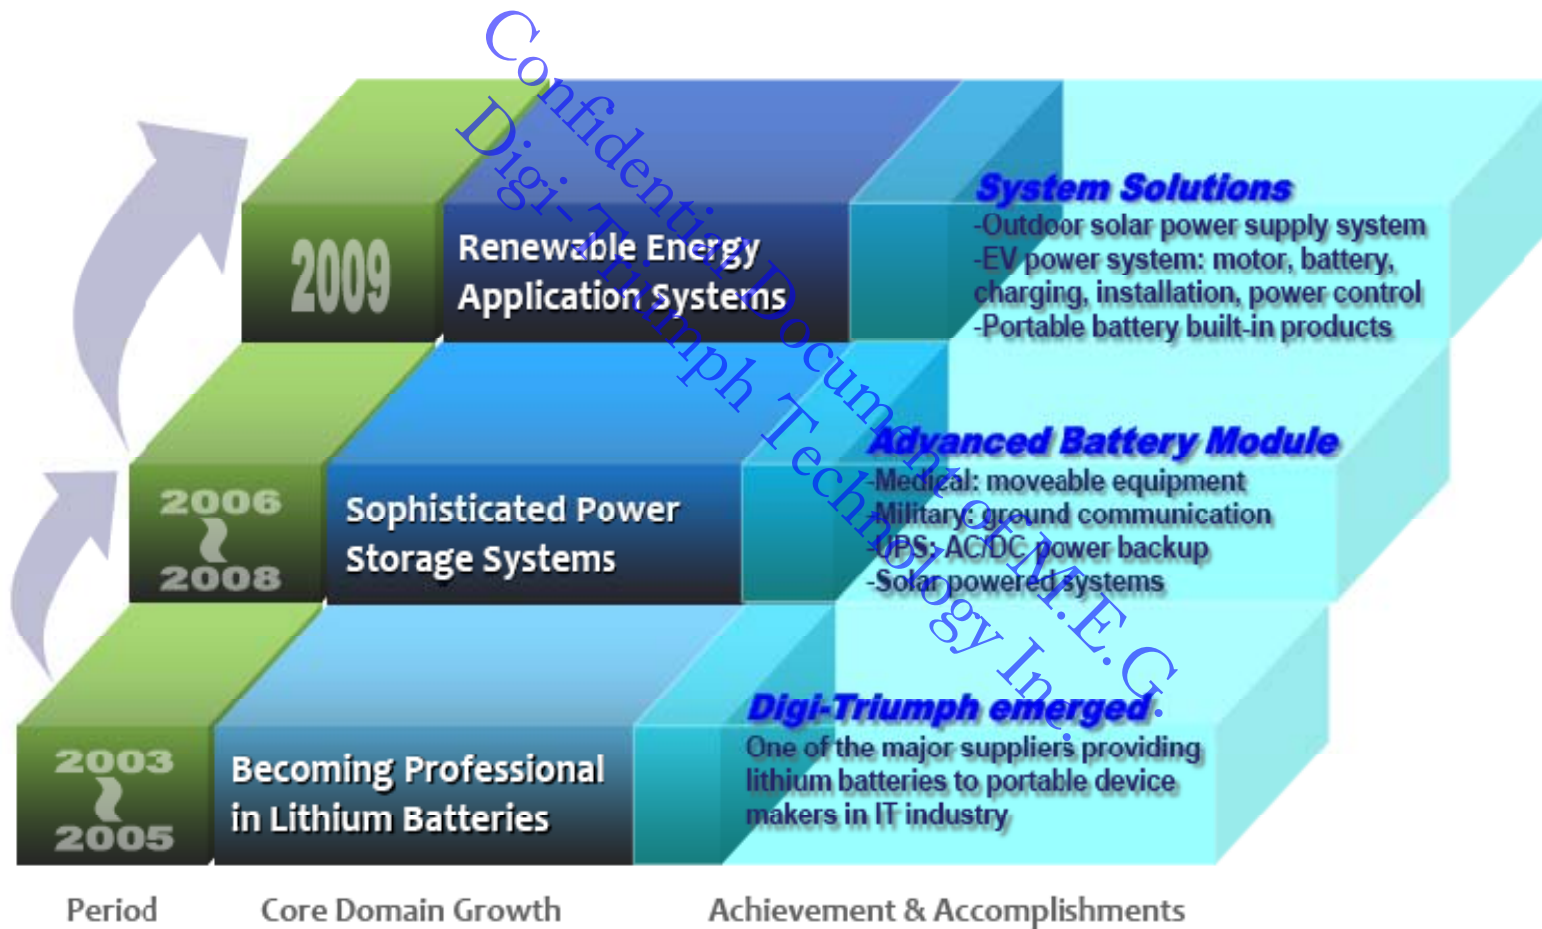

Our Vision

As a company to develop eco-friendly and recycling products, Digi-Triumph focuses on the design and manufacturing of all kinds of portable energy application products. Despite of developing of technology, we consider that **energy saving, recycling, portable, and eco-friendly** are only main trend of market in the future. In order to offering the products and services to all people in the world, Digi-Triumph has entered the business of power storage system and modules for backup power, moveable lighting device, renewable energy application and electric vehicles, except of lithium battery module for IT products. We hope to offer consumer more well-suited and convenient portable energy solution by the integration ability of IT industry.

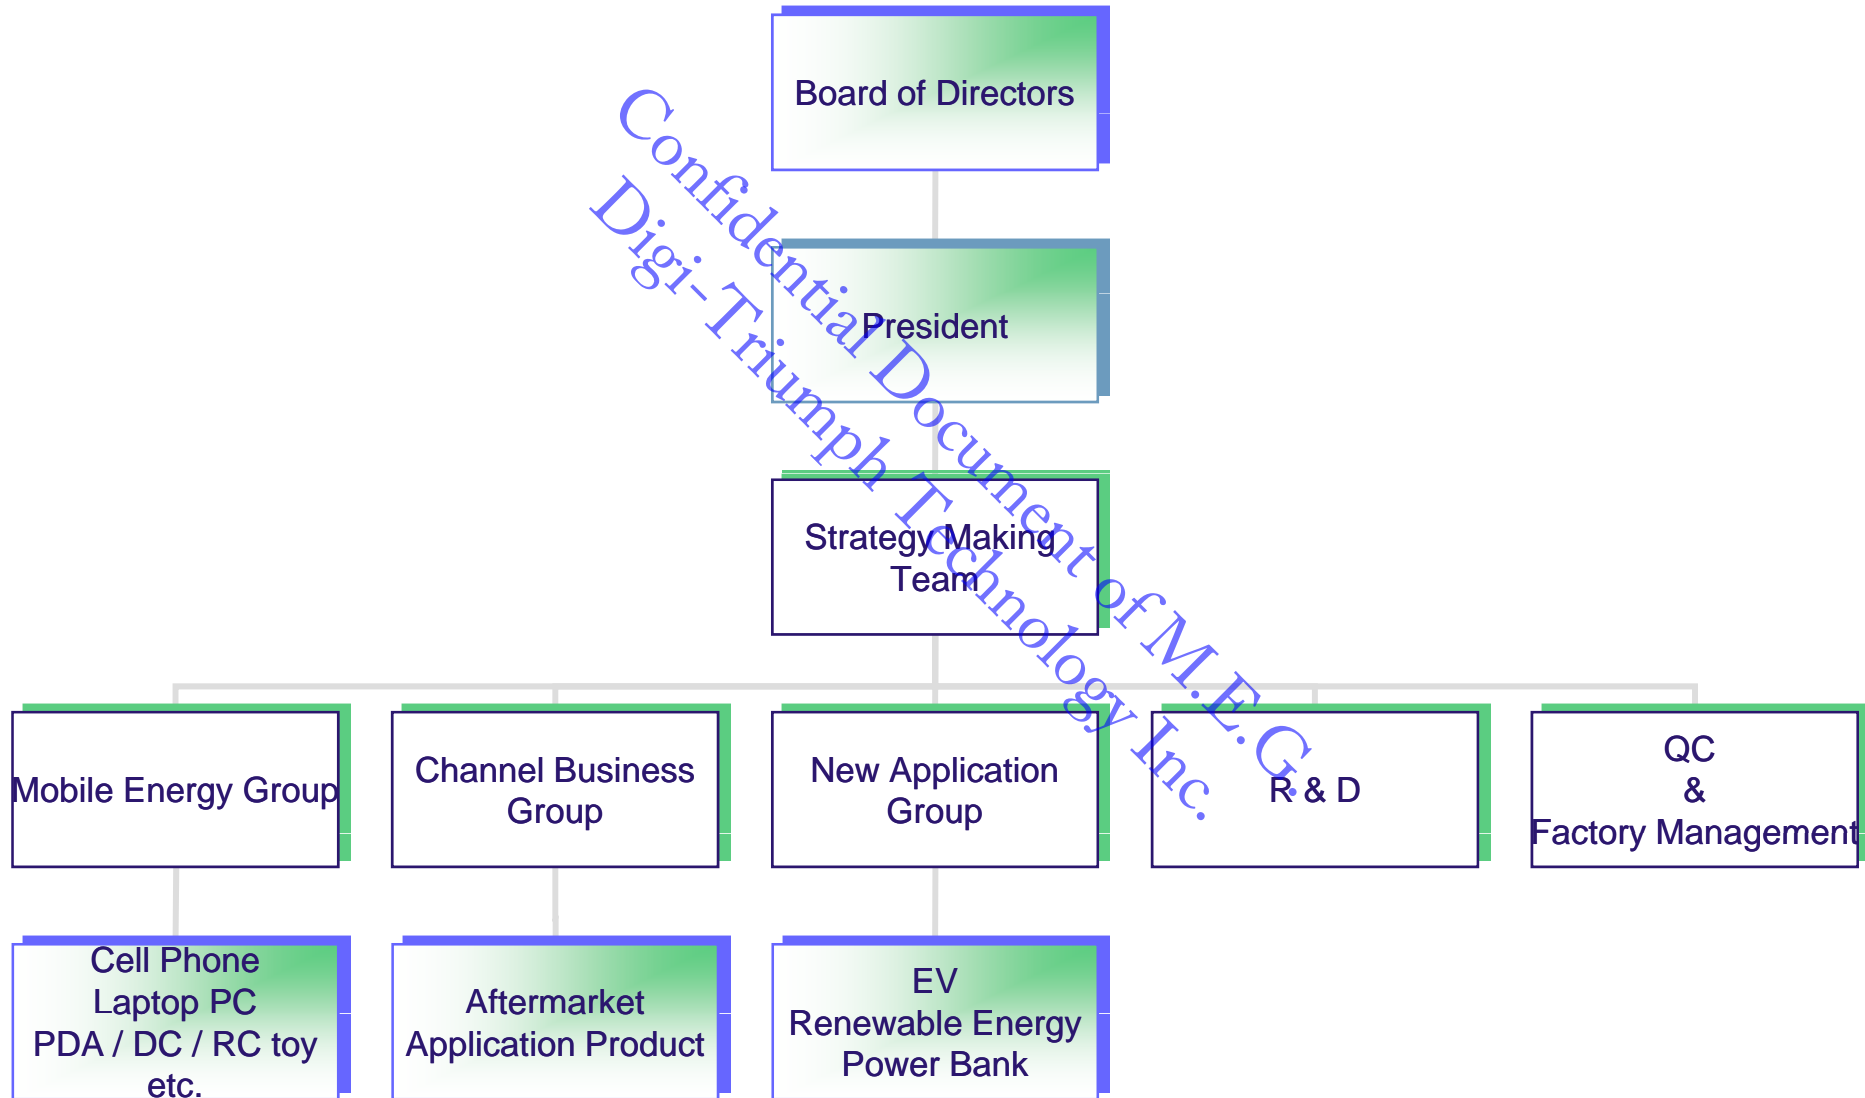

Based on developing tre-win value of customer, consumer and environment protection, Digi-Triumph not only holds the core system integrated ability, but wishes to work closely with worldwide partners; to develop and promote the advanced energy products which is more well-suited to human life and environment. At the same time, we also wish our brand, Just Power, can be known by worldwide by all kinds of business cooperation.

Our Slogan: Just Eco-Power Everywhere

Milestone of Digi-Triumph

Organization

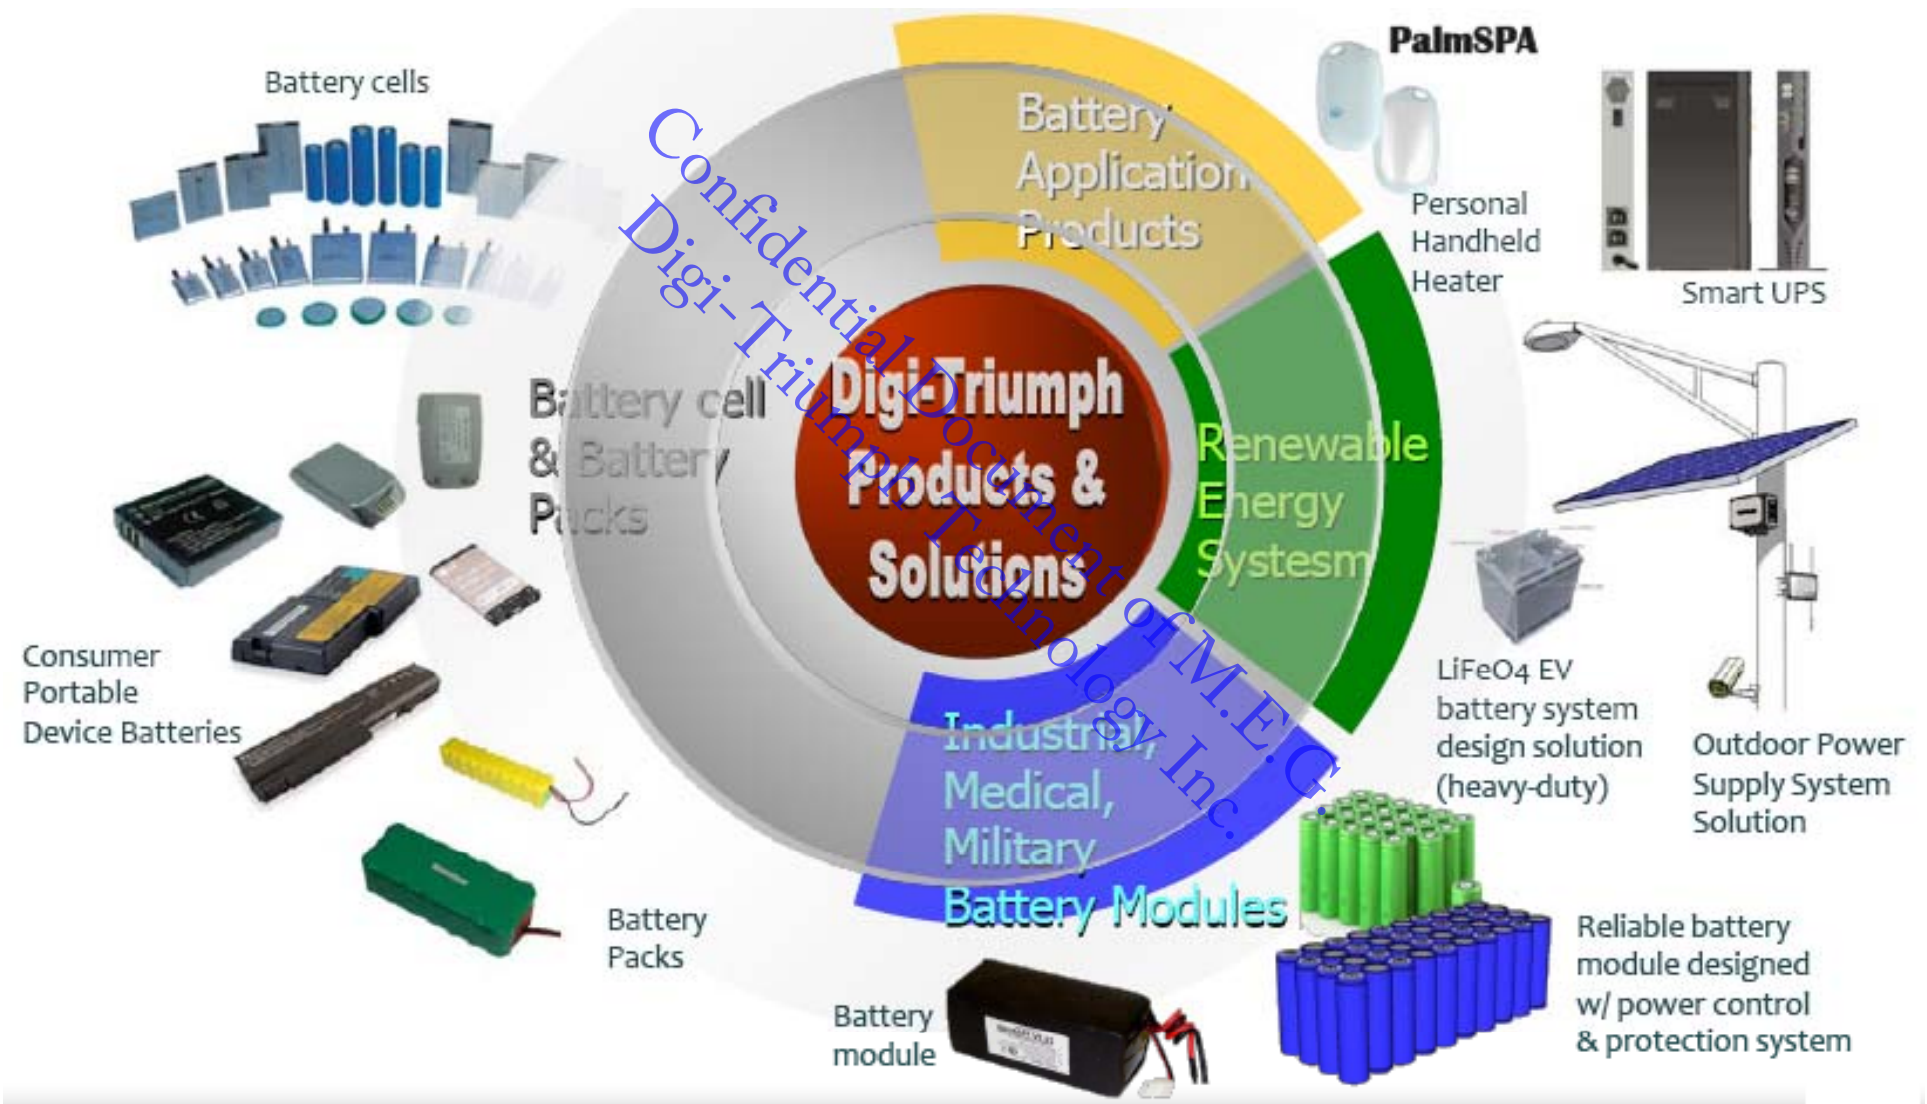

Our Position and Advantages

- ❖ Professional designer & maker of portable power products.
- ❖ Cooperating with worldwide and local IC designer, product solution provider, IC distributor, battery cell maker and oversea retail channel.
- ❖ Close co-work relationship on mass production with our partner factory and research institute of green power.
- ❖ Powerful technical ability to order of ODM (Original Design Manufacture), customization products, and CTO (Configure to Order) order.
- ❖ Professional global international marketing and sales group and local service.

Cooperative Partnership

- ❖ IC Designer : TI, O2-Micro, Linear Tech, Dallas-Maxim, Seiko, Ricoh, Panasonic...
- ❖ IC Distributor : Prospect, WPG
- ❖ Battery Cell Maker : A123, Boston Power, Sanyo, Panasonic, LGC, Samsung, Golden Peak, Amita, BAK, ATL, Yiklik, Great Power...
- ❖ Others: Meanwell, Fairway, Synmos, Gearlab, Tynsolar.....

Product Map

Li-ion or Li-Polymer Battery Pack

❖ Application

- 1) Cell Phone
- 2) Laptop PC/ Netbook / MID
- 3) GPS PND
- 4) Portable DVD player
- 5) RC toys
- 6) Moveable
Military/Industrial/Medical
Devices

Renewable Energy Application

- ❖ OPS: Outdoor Power Storage System for PV
- ❖ Power Tank S: Power Storage and management System for renewable energy system (wind & solar)
- ❖ OPS mini-core controller system for PV

Electric Vehicle

- ❖ Beam Reach E-bike Conversion Kit
- ❖ Power Tank M: Lithium battery module for:
 - 1) E-bicycle
 - 2) E-scooter
 - 3) Light Electric Vehicle
- ❖ Lithium Battery Module of Electric yacht

Battery Application Product

- ❖ Rechargeable Hand Warmer (WS-1)
- ❖ Pocket Aroma Diffuser
- ❖ Portable LED Emergency Lighting Module
- ❖ Portable DC electrical oven (rechargeable)

Thank You
